Global Education & Senior Leaders Meeting 2024

Daily Itineraries

UNNC

Monday 21
October

University of Nottingham, Ningbo

09:00	Delegates in Ningbo to meet in hotel lobby, Shangri-La Ningbo Coach departs to Ningbo Campus
10:00	Welcome Professor Jon Garibaldi, UNNC Provost
10:10	Welcome Jinhui Chen, Deputy Director of Ningbo Education Bureau
10:35	UNNC introduction and Global Engagement and Partnership presentation Professor Alain Chong, UNNC Vice Provost for Global Engagement and Partnerships
10:55	Refreshment break and group photo
11:10	Research presentation Professor Laura Bishop, UNNC Vice Provost for Research and Knowledge Exchange
11:30	Buffet Lunch at Lakeside
13:15	Campus Tours led by colleagues and UNNC ambassadors Visit UNNC museum in Trent Building Visit the Key Laboratory of More Electric Aircraft Technology and Composite Materials Lab
14:30	Coach departs to city
15:00	Tianyige Museum visit Tianyige Museum, also known as the "Book City in South China," is situated on the bank of Moon Lake in the west of Ningbo City. It is a theme museum that showcases book-collecting culture with a combination of history and arts. Originally built as a private library by Fan Qin during the Ming Dynasty, it is one of the oldest private libraries in China and among the oldest worldwide. The museum holds national significance as it belongs to various National Protection Units such as Culture Relics, Ancient Books, and more.
17:30	Dinner
19:00	Return to hotel

DAY 0

Tuesday 22
October
SJTU Xuhui Campus

09:15	Delegates in Ningbo to meet in hotel lobby
09:30	Coach departs Shangri-La Ningbo
12:30	Approximate arrival time at Hengshan Garden Hotel, Shanghai
14:30	Registration desk available in the main lobby of Hengshan Garden Hotel
17:00	Delegates to meet in hotel lobby Coach/walk to SJTU Xuhui Campus
17:30	Welcome Reception Venue: Antai College, Shanghai Jiao Tong Xuhui Campus
19:30	Coach/walk to hotel

DAY 1

Wednesday 23
October

SJTU Xuhui Campus

Education
Innovation

Student
Experience

Senior
Leaders

08:30	Delegates meet in hotel lobby Coach/walk to SJTU Xuhui Campus		
09:00	Morning plenary panel: In Conversation with Employers: Preparing Students for a Global Future Venue: Law School Lecture Hall		
10:00	Refreshment break Delegates move to Antai College building for the next sessions		
10:30	The Transdisciplinary Futures Project: Preparing Learners to Contribute to a Complex World Venue: Room 303 (Antai College)	Health Humanities Global Classroom using digital museum collections – an approach to develop students' intercultural capabilities Venue: Room 305 (Antai College)	Senior Leaders' Meeting: Progress Updates and Future Directions Venue: Room 511 (Antai College)
11:30	Partnering with Industry and Community to cultivate talents for the future Venue: Room 303 (Antai College)		
12:30	Delegates return to Law School building		
12:40	Closing Plenary: Reflections and Actions Venue: Law School Lecture Hall		
13:30	Lunch		
14:00	14:00: Coach departs to Fudan University 14:30: Coach/walk to hotel for all other delegates		
14:30	Fudan University Partner Visit (see agenda on following page)		
19:00	Coach departs to hotel		

Fudan

Friday 25
October

Fudan University

14:00	Coach departs to Fudan University Handan Campus
14:30	Welcome by Prof. CHEN Zhimin (Vice President of Fudan University)
15:00	<p>Lab Visit 1: Institute of Archaeological Science</p> <p>Archaeological science and technology refer to the study that applies natural scientific techniques to address archaeological questions. Fudan University has forty years of experience in archaeological science and technology research. In studying ancient artifacts, Fudan professors utilize techniques like PIXE to analyze unearthed relics like ancient ceramics and glass. In bioarchaeology, Fudan University's archaeological team conducts interdisciplinary research in collaboration with global counterparts, conducting on-site investigations at various ancient Chinese sites. Their research encompasses analysis of ancient human bone DNA, reconstruction of ancient diets through trace element analysis of human bones, a study of bone pathologies, archaeobotany, zooarchaeology, pollen analysis, and reconstruction of ancient environments.</p>
15:40	Transfer to Jiangwan Campus (via bus)
16:00	<p>Lab Visit 2: The atmospheric observation station of Fudan University</p> <p>The atmospheric observation station is located at the Jiangwan Campus. The site layout is planned according to the requirements of a basic meteorological station. The main observation equipment currently includes instruments for monitoring near-surface air temperature, air humidity, radiation, sunshine, precipitation, and weather phenomena etc.</p>
	<p>Lab Visit 3: Micro-Nano System Center</p> <p>Based on the Fudan University Intelligent Electronics and Systems Laboratory, the Intelligent Interaction Platform engages in teaching and research. It includes neuromorphic computing platforms, media interaction and virtual reality R&D platforms, open robotics platforms, flexible wearable devices, human-computer interaction systems, and cognitive training systems. In recent years, the laboratory has achieved significant breakthroughs in key technologies such as low-power neuromorphic chips, high-efficiency edge computing, and distributed collaborative systems. Concurrently, it collaborates with multiple innovative enterprises including China Aerospace, China Mobile, Bosch Group, and New He Intelligence, actively promoting the application of related technologies in industrial IoT, autonomous systems, and smart healthcare fields.</p>
17:30	Dinner, Jiangwan Campus
19:00	Coach departs to Hengshan Garden Hotel
